

Senteo vs eInstruction Clickers

As you are thinking about your purchases for student response pads (clickers) keep in mind the following:

	Senteo  RF	eInstruction  RF and IR
Software	Uses the same software that SMART Boards and AirLiners use (SMART Notebook) Very easy to learn if already familiar with SMART Notebook.	Uses CPS software Harder for teachers to learn than Senteo software.
Compatibility with Exam View	Works with Exam View but not as seamlessly as eInstruction. Does NOT import math equations and graphics from Exam View. (Can import questions from Microsoft Word however math problems still remain an issue.)	Works well with Exam View.
PowerPoint	Works with PowerPoint. (Font is a little small and a bit hard to read.)	Works with PowerPoint
Other Applications	Only works with SMART Notebook and PowerPoint	Works with any application.
Class Lists Management	Easy to import class lists from Excel. Easy to manage in classroom because students do not have to be assigned a specific clicker. Students "log in" using a number on any unit.	Easy to import class lists from Excel. Students are assigned a specific clicker.
Reports	Basic reports are available and can be downloaded to Excel. Questions can not be tied to standards.	Robust reporting that can be tied to standards.
Price	RF - \$1294 (24 set) RF - \$1610 (32 set)	IR - \$1625 (32 set) RF - \$3030 (32 set)
Service	Great service from past history with SMART Technologies and KCAV.	Great service with Larry and Lyle.
Graphics and Multimedia	Easily add questions to almost any type of graphic or multimedia in SMART Notebook software	Graphics and video can be added but process is more cumbersome.
Survey Questions	Yes	Yes
Multiple Mark	Yes	No
Student Led	Yes	Yes
Gameboard Feature	No	Yes
